Veterans Officials To Discuss Program

All field managers and co-ordi-nators of the state department of Veterans Service met with Director C. Arthur Cheatham in Macon last Thursday and Friday to discuss the work of the department in expanding as rapidly as possible the farm and pre-vocational training program for Georgia's ex-servicemen, and to consider how the department could best be of aid to local officials in providing the required teachers for the training program.

Director Cheatham discussed all phases of the stepped-up program with the managers and stated that great progress had been made during the past thirty days, particularly insofar as elimination of a lot of red tape in getting a veteran started on his educational training.

The director stressed to the man-agers also that in the medical phase of veterans service it is of primary importance that a tuberculosis sur-fer be found and given hospital treatment in the early stages of the disease. And for those with nervous or mental diseases, the director said, proper counseling and extreme cau-tion in the handling of such patients is necessary in order that a future chronic condition may be avoided.

Director Cheatham expressed him-self as well pleased with the pro-gram as well as the efforts of the department would be redoubled so as to take care of the long list of veterans who are awaiting training.
